

What is IC³?

The Internet and Computing Core Certification (IC³) program is a global, validated, standards-based training and certification program for basic computing and Internet knowledge and skills. Successful completion of IC³ ensures you have the knowledge and skills required for basic use of computer hardware, software, networks, and the Internet. **IC³ is your gateway to advancement in education, employment, or other certification programs.**

Why get IC³ certified?

In today's digital world, almost all jobs and academic institutions require basic computing knowledge and skills. An IC³ certification will immediately identify you as someone who has what it takes to succeed as a student or employee. Prove to others that you have the essential computing knowledge and skills to be successful.

Brochure is an adaptation of IC³ certification brochure registered to Certiport.

IMPROVE YOUR CHANCES

While many may claim to have the skills, the ability to verify such skills is rare; giving those who are IC³ certified a major advantage in the job market. As a recognized academic credential, IC³ will also help those interested in higher education get accepted into leading universities, colleges, trade schools, or other institutions.

RECOGNIZED WORLDWIDE

IC³ is already in over 60 countries and recognized as a standard in basic computing and Internet skills by employers, Information & Communications Technology (ICT) professionals, academic professionals, and other organizations.

IC³ is now recognized in the U.S. by the National Skill Standards Board (NSSB) as having met the highest professional and technical standards quality, the first computer certification to do so.

Earn College Credit

IC³ can help you achieve your higher education goals. IC³ has earned an ACE credit recommendation for college education so you can seek credit from more than 1,200 accredited, degree-granting colleges, universities, and other education-related organizations that are members of ACE*.

*Colleges and universities accept ACE credit recommendations based on their own policies and requirements for each particular degree.

Certification Requirements

All you need to do to become IC³ certified is pass 3 exams that test your knowledge and skills through knowledge-based questions and performance-based tasks. Each exam takes less than an hour to complete. Training materials are provided and instruction is a combination of teacher led and self-paced modules.

Learn ...

Module I: Computing Fundamentals:

- Computer Hardware
- Computer Software
- Using an Operating System

Module II: Key Applications:

- Common Program Functions
- Word Processing Functions
- Spreadsheet Functions
- Presentation Software Functions

Module III: Living Online:

- Networks and the Internet
- Electronic Mail
- Using the Internet
- The Impact of Computing and the Internet on Society

Work Readiness:

Through interactive workshops, prepare for success in the workforce. Learn Basic Workplace Skills, Basic Workplace Knowledge, Basic Employability Skills, and Lifelong Learning Skills.
